REMARKS 25X1

25X1

25X1 The STENDAL-BORSTEL (M 53/Y 75) airfield was occupied to
25X1 capacity on 23 July 1949. The air force units stationed
25X1 at the field were equipped with motor vehicles 25X1

(wearing black epaulets). 25X1 A technical unit
25X1 25X1

25X1

25X1 25X1 was also stationed
25X1 at the field. There was little flying with the fighters
25X1 stationed at the field. Night flights with position lights
25X1 were performed with these aircraft several times during May
25X1 and June 1949.

25X1 25X1 Comment

a. Report confirms the previously assumed occupation of the
25X1 STENDAL-BORSTEL airfield by a fighter unit without stating
25X1 the number of aircraft stationed there. Most of the fighters
25X1 stationed at this airfield are Yaks. According to observa-
25X1 tions of June 1949, IAs are also stationed there. Since night
25X1 flights were previously repeatedly reported it must be assumed
25X1 that a night fighter unit of presumably one regiment is sta-
25X1 tioned in STENDAL-BORSTEL.
